HYDRAMASTER HYDRAHOE SPECIAL BULLETIN

The Hydramaster Hydrahoe wand is particularly problematic to fit, having gone through several changes over the years and having many clones and look-a-like's as well. At present there are four versions of Hydrahoe wands: Two are 11" and two are 12". If the glide you have received does not fit your wand snugly, or will not snap over the lips of your wand, please call us toll free at:

866-438-8335

We will send out the correct version at no cost. Do not return to the retailer where you purchased your glide.

To make the process of determining which version you have as quick and easy as possible, please have your wand and an accurate tape measure available when calling. Also if possible, digital pictures of your wand's head (front, back, slot, side) and valve are extremely helpful. Email them to:

Email: info@greenglides.com

If you have several Hydrahoe wands to fit, we can also send out a Hydrahoe fitting kit at no charge to streamline the process of ordering.

If you have any questions or concerns with the installation, use or fitting of your Hydrahoe wand, please feel free to call the GreenGlides support line at: 866-438-8335 between the hours of 6am and midnight PST 7 days a week.
