SPECIAL TITANIUM GLIDE BULLETIN

- **Due to the extreme variability of the Prochem Titanium casting we found it necessary to create a secondary fit to ensure excellent performance with all Titanium wands.**
- **90% of Titanium wands currently in existence will fit the standard Titanium glide, however, if the standard Titanium glide fits loosely on your wand please contact us immediately and we will replace it at no charge with an undersize fit Titanium glide.**
- **Need an UNDERSIZE fit glide? Have QUESTIONS or CONCERNS with the installation or use of your glides? Call the GreenGlides helpline at 1-866-GET-TEFLON (1-866-438-8335).**
